

第10回 日本消化器病学会奨励賞受賞者一覧  
1997年度

1	<p>大曲 勝久 (Centre for Molecular Biology and Medicine, Monash University) Immunoreactivity of antimitochondrial autoantibodies in Japanese patients with primary biliary cirrhosis (Journal of Gastroenterology 1996;31:61-68)</p>
2	<p>佐藤 之彦 (札幌医科大学第1内科) Expression of CD10/neutral endopeptidase in normal and malignant tissues of the human stomach and colon (Journal of Gastroenterology 1996;31:12-17)</p>
3	<p>白原 ひさし (産業医科大学第3内科) Effects of intravenous infusion of amino acids on cholecystokinin release and gallbladder contraction in humans (Journal of Gastroenterology 1996;31:572-577)</p>
4	<p>寺本 睦 (島根医科大学第1外科) Distribution of nitric oxide synthase-containing nerves in the aganglionic intestine of mutant rats : A histochemical study (Journal of Gastroenterology 1996;31:214-223)</p>
5	<p>永原 章仁 (順天堂大学医学部消化器内科) Reduction of gap junction protein connexin 32 in rat atrophic gastric mucosa as an early event in carcinogenesis (Journal of Gastroenterology 1996;31:491-497)</p>
6	<p>平野 博之 (東北大学医学部第3内科) Effects of ethanol on meal-stimulated secretion of pancreatic polypeptide and cholecystokinin : Comparison of healthy volunteers, heavy drinkers, and patients with chronic pancreatitis (Journal of Gastroenterology 1996;31:86-93)</p>
7	<p>平野 史倫 (旭川医科大学第2内科) Effects of ursodeoxycholic acid and chenodeoxycholic acid on major histocompatibility complex class I gene expression (Journal of Gastroenterology 1996;31:55-60)</p>
8	<p>福田 亮 (島根医科大学第2内科) Expression of interferon-alpha receptor mRNA in the liver in chronic liver diseases associated with hepatitis C virus : Relation to effectiveness of interferon therapy (Journal of Gastroenterology 1996;31:806-811)</p>
9	<p>星 治 (山梨医科大学第1内科) Selective uptake of intraluminal dextran sulfate sodium and senna by macrophages in the cecal mucosa of the guinea pig (Journal of Gastroenterology 1996;31:189-198)</p>
10	<p>松田 康平 (神戸大学医学部第2内科) Effects of growth factors and gut hormones on proliferation of primary cultured gastric mucous cells of guinea pig (Journal of Gastroenterology 1996;31:498-504)</p>
